## Fast, accurate, high-quality Color and Mono printing

**Now you can ensure maximum productivity, cost efficiency, and control of your demanding printing needs—today and tomorrow.**

With the C7300/C7500 Series color printers, OKI delivers stand-alone and network business color printing without compromise.

Full-color output at up to 20 pages per minute and monochrome at 24 ppm<sup>1</sup>—on sheets from postcard-size to 8.5" x 47.24" banners.

**Unmatched performance is built in.** Advanced color-matching firmware and high-speed data processing are integral to the C7300/C7500 Series printers' exceptional color printing performance.

OKI Single Pass Color™ Digital technology combines with improved image processing to deliver consistently accurate color. Auto Color Balance ensures that hues stay the same from start up through long print runs; new color tables simulate popular ink standards, such as SWOP™, Euroscale and Japan Color; and refined color screens provide smoother output, especially on documents with photos.

A powerful 450 MHz processor means less time waiting for documents to print from your PC or Mac®. So that you can maximize the performance of your printer now or as your needs for large documents and

complex graphics grow, every C7300/C7500 model ships with generous standard RAM and can be upgraded to 1 GB RAM. And, to augment their document/file storage capabilities, all models are available with an internal 10 GB hard disk drive.<sup>3</sup> They can also be connected to your network via an internal 10/100 Base-T OkiLAN® 6200e+ print server.<sup>4</sup>

**Versatile paper handling.** The standard 630-sheet letter/legal capacity—with options for expansion to 1,690 pages—keeps user interventions to a minimum. Auto Media Detect reduces paper selection errors and waste, and a compact duplexer allows double-sided printing to minimize media usage and cost.<sup>3</sup>

**Costs less to operate.** You can save substantially on the cost per printed page with these OKI printers versus color laser, color inkjet and, especially, outside copy services.

What's more, the cost of a black-and-white page is comparable to that of most mono laser printers—so you can use OKI C7300/C7500 Series Digital Color printers to fit the way you work and satisfy all your business needs.
