¹ Works only with duplexer-equipped OKI Digital Color printer.

² Letter-size sheets.

³ Standard on C9500dxn.

Tabloid-size (11" x 17") permanent color copies and fast network printing—right in your workspace.

Your business thrives on color—and large, impactful color documents are part of your daily communications. Think about how many presentations, ad layouts, enlargements of photos and illustrations, information-packed spreadsheets, signs and posters you design. Not to mention the countless letter- and legal-size pages with color in them. Now figure how much all that color copying is costing you...

You need an affordable in-house color copy system to increase your productivity—and lower your expenses. In other words, you need an OKI® C9300n/C9500dxn Wide-Format Color Copy System (CCS). Rather than running to the corporate or neighborhood copy center every time you need tabloid-size color copies (or postcard-size or any size in between), simply make your copies on your own convenient machine!

Built-in productivity and reliability. Set up your C9300/C9500dxn CCS on its custom cabinet/stand and experience copy-center performance, even with limited space.

Both the C9300n and C9500dxn CCS models produce up to 99 copies of an original page. Just place up to 50 sheets in the Auto Document Feeder, enter copying instructions and, in a conveniently short time, you have professional-looking material.

Walk-up copying and network printing.

Use the system as a walk-up color or mono copier (no PC required), or enhance the productivity of your workgroup or department by using it as a fast network printer. Both C9300/C9500 CCS models come factory-configured with the OkiLAN 6200e+ 10/100 Base-T Ethernet internal print server, so they're right at home in the most popular shared environments.

And both models can print on sheets as large as 12.9" x 47.24"!

The C9300n/C9500dxn CCS also support OKI Job Accounting software (which comes standard), allowing you to get a precise count of color and mono pages as well as copies versus prints.

OKI®

Designed to Perform in the Most Demanding Environments.
